

Maple Street School's Math Newsletter April 2017

SBAC Testing

The most important piece of information we would like to share is to get your students to bed EARLY during testing, and well fed in the a.m. Of course they can have breakfast at Maple Street School, too!

Thank you for your ongoing support at home. Remember, 10 minutes of fact practice and thirty minutes of reading each day goes a **LONG** way!

Hello Maple Street Families! I hope this finds you well as you gearing up for the activities of spring--sports, recitals, concerts, outdoor fun and TESTING. Maple Street will gear up to test students in grades 3-5 in April. Students are tested in Literacy, Mathematics and Science. ***Please contact your teacher for specific testing dates for your child.***

Take a look at the link from the Smarter Balanced Consortium if you are interested in some parental advice. You can see sample questions and practice tests. Please visit the website below together:
