

Preventing the Flu: *Good Health Habits Can Help Stop Germs*

1. Avoid close contact.

Avoid close with people who are sick. When you are sick, keep your distance from others to protect them from getting sick too.

2. Stay home when you are sick.

Stay home from work, school and errands when you are sick. Keep sick children at home. You will help others from catching the illness.

3. Cover your mouth and nose.

Cover your mouth and nose with a tissue when coughing or sneezing. Throw the tissue in the trash after you use it.

4. Wash your hands often.

Washing your hands and hands of your children often will help protect you from germs.

5. Avoid touching your eyes, nose or mouth.

Germs are often spread when a person touches something that is contaminated with germs and then touches his or her eyes, nose or mouth.

6. Practice other good health habits.

Get plenty of sleep, be physically active, manage your stress, drink plenty of fluids and eat nutritious food.
